

Project Development Phase

SPRINT-4

Team ID	PNT2022TMID53155
Project Name	Project – Estimate the Crop Yield using Data Analytics

Report

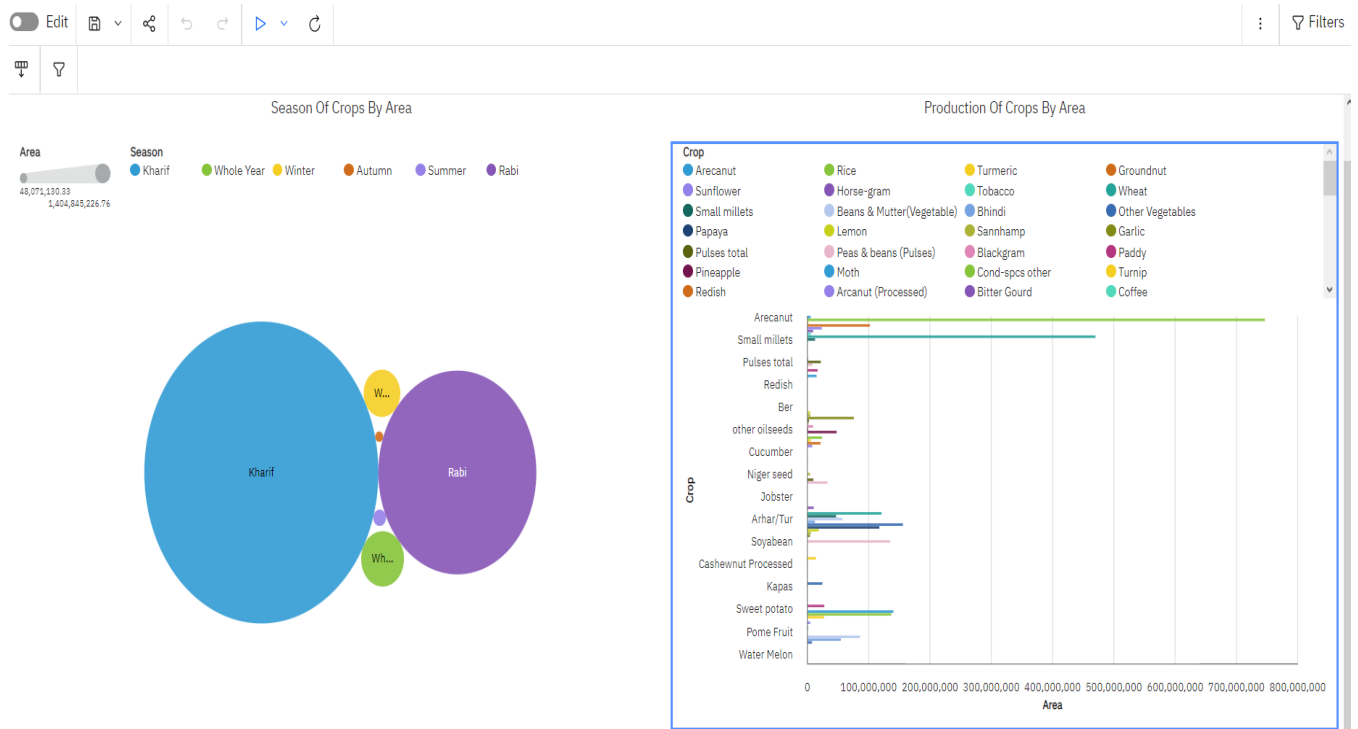

- Report is a type of business report in which we present quantitative and qualitative data to evaluate the strategies and performances.
- Based on this data we gives recommendation for further steps and business decisions while using the data as evidences that backup our evaluation.
- It is also an end to end data visualization capabilities to application but with a more detailed manner.
- It can gives some useful information about the dataset modules.
- First we can login to the IBM cognos account.
 - ✓ Then click the left side of the corner and then shows some drop down list.
 - ✓ Click the new option from the drop down list.
 - ✓ Then click to create the report option and then click the required templates.
 - ✓ Then finally visualization the chart.
